

24/Seven®

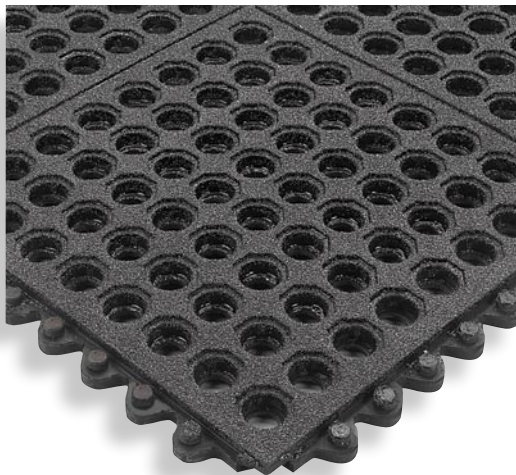

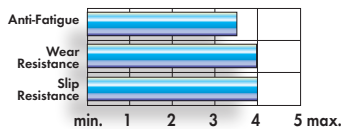

NEW
Cutting Fluid Resistant
COMPOUND

Performance (CFR): BEST
Performance (All-Purpose): BETTER

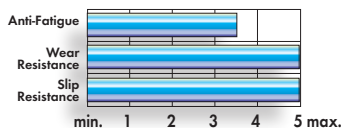

24/Seven® No. 572

- Its drainage design allows fluids and debris to freely flow through

24/Seven® GritWorks!® No. 576

- Its GritWorks!® surface provides almost 40% more traction than OSHA recommends in wet areas
- Only** available in **CFR** - a unique rubber compound resistant to mineral oil based cutting fluid.

Named for their ability to work twenty-four hours a day, seven days a week to keep your employees comfortable and productive, the **24/Seven®** mats are substantial, modular, molded rubber anti-fatigue mats in four (4) versions for virtually every application. They are 5/8" thick single work station mats, but have a hidden interlocking system designed to connect on all four sides to quickly cover large areas. For extra employee safety, attach the 3" wide black or yellow safety beveled edge.

24/Seven® mats are available in two compounds:

All Purpose - natural rubber for use in dry areas and around water.

New CFR - a totally new and innovative compound that is resistant to mineral oil based cutting fluids and provides good chemical resistance.
