

**WHAT A
FINE
MESH**
WE'VE GOTTEN
OUR CUSTOMERS INTO.

American Wire Products' ISO 9001/QS-9000-certified Wire Mesh Rack Decking is as fine a mesh as any in the land. Or any of the other 90 lands that adhere to the international ISO quality standards. It's a mesh that's virtually indestructible, one you can count on for years of premium performance at a very economical price. Available in a variety of sizes and styles, there's American Wire Products' Rack Decking for just about every application. With American Wire Products' Rack Decking, you'll never have to mesh around with anyone else.

Wire Mesh Rack Decking

Constructed of cold-drawn steel, American Wire Products' Wire Mesh Rack Decking goes up fast and lasts and lasts. Whether you're upgrading an existing storage system or creating a new one, its no-nuts/no-bolts assembly makes for fast no-nonsense installation. Its steel is protected by an oven-baked gray enamel paint finish for years of maintenance free use. Ideally suited for facilities with sprinkler systems, our Wire Mesh Rack Decking meets all fire and safety regulations.

The mesh design also keeps items from falling through the rack system. Another mesh plus is it lets you quickly perform visual inventory checks. Finally, the steel mesh gives you greater structural strength than other materials without providing a resting place for dust and dirt.

We give you lots of options, including the option of designing rack decking to meet your unique needs.

- We'll make it any size and rack style you want.
- Choose either 2-gauge or 4-gauge.
- Select fabric configuration according to the products' size, weight and shapes.
- Choose from the industry's widest selection of reinforcing channels (including inverted).
- Choose your coating: Our standard option of oven-baked gray enamel or powder coated, hot-dipped galvanized or electro-zinc plated.
- Try our multi-purpose, low-cost decking for lightweight applications (no channels).
- Finally, you can tell us what you need and we'll make decking just for you, based on capacities, load requirements, load handling, equipment used, spans, widths, deflection requirements and other criteria.

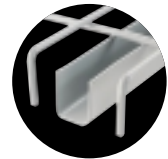

Nine quick reasons you'll love American Wire Products' Wire Mesh Rack Decking for life:

- Most popular sizes available from our Quick Ship Program
- Economical
- Maintenance free
- Open design for quick visual inventory checks
- Quickly upgrade existing system or create a new one
- Meets fire and safety requirements
- Crisscross mesh design keeps items from falling through
- Lightweight
- Easy installation. No hardware. Just drop in.

American Wire Products' Wire Mesh Rack Decking is available in a variety of construction styles.

Decking with a waterfall for step beam applications.

Choose from a number of mesh patterns: 2" x 2", 2" x 4", 4" x 2", 1" x 4", 4" x 4" and 2-1/2" x 4".

A unique part of the American experience

One of our unique American experiences is the automatic check of every order we receive. Part numbers, quantities, prices and delivery dates are all verified. Once we're sure it's right, it's manufactured and shipped. It's just one of the many things that make the American experience unique. To put our experience to work for you, call 1-800-666-9938.
